Adaptable and proactive Front-End Web Developer on React with 2 years of experience building and maintaining responsive web applications in independent as well as collaborative environments. Passionate about learning and working on new technologies where I can utilize my skills to help drive the success of the organization.

PROFESSIONAL EXPERIENCE

Software Development Engineer - 1
Bolt.Earth

04/2023 - 02/2024   *Bangalore, India*
EV Charging Station & Software Solution Company

Closed User Group

About: A feature designed to accommodate for exclusive community of users who can conveniently access charging facilities, enhancing the accessibility and convenience of electric vehicle ownership.

- Encompassed the development using React & Hooks, Material-UI for user-friendly interfaces and executed end-to-end test cases using Jest

Revenue Splitting

About: A feature introduced to facilitate the distribution of earnings among hosts and other participants involved in various services or transactions for efficient management and allocation of revenue generated from activities such as monthly charging rentals, bookings, or other collaborative ventures.

- Crafted the development using React & Material-UI for a responsive user experience

Junior Front-End Developer
Bolt.Earth

06/2022 - 03/2023   *Bangalore, India*
EV Charging Station & Software Solution Company

Host Payment Details

About: A business platform, where the host is allowed to securely upload their payment information such as account, contact, other details into the system for efficient disbursal of funds and earning, fostering trust and transparency in revenue sharing purposes.

- Applied React, Material-UI & REST API's to create a user-friendly interface for efficiently uploading of host details

Currency Conversion

About: A dynamic functionality to convert and display currency values and symbols ensuring accurate global transactions and up-to-date exchange rates.

- Applied React along with currency conversion library to ensure effective data visualization and user engagement.

EDUCATION
